
Munich - Germany

The **TANDEM International Workshop** is an annual meeting point for all TANDEM language schools and study abroad agencies. The workshop takes place over several days in the city of a TANDEM member school.

After a first day with workshops regarding internal topics, there is a whole plenary day only for member schools. Guided visits and evening social events showcase the destination and its culture. A visit to the hosting school completes the program.

More than 30 language school representatives and other colleagues attended our workshop in Munich from **19 to 21 November 2004**. [TANDEM Munich](#) was the host of the meeting. The school is one of the oldest and most prestigious members of our network.

After a Welcome and Introduction part by the **TANDEM International Board**, the meeting started on Friday morning with the following workshops open to all member schools:
